Angelo Rhodes east is just over 2 to 1 fsr when you average the whole area actually quite low density nothing like pots point or Burwood consider I P site is around 14 to one fsr about 6 times the density of Rhodes east with no public infrastructure where are we going with all of this i am puzzled four years ago we had a resolution on Rhodes west which the council did not live up to four years council asked if we could work together and change the leisure centre and we responded immediately in a positive way to work with council even through we have a contract to build the approved centre it was very disappointing to read the council response on the paper today i got so many calls from the public this evening clearly aimed at prolet and billbergia have a good sleep and clear your head and i hope you wake up more positive

Council misled the inner west courier and the public , 4200 dwellings in 17 hectares in not the size of Rhodes , Rhodes is 100 hectares in total size , 5,380 dwellings plus 4,200 dwellings on exhibition total =9,580 dwellings over 100 hectares = 95.8 dwellings per hectare once fully developed (at the moment 53.6 dwellings per hectare) compared to Potts point as yesterday article 110 dwellings per hectare . Rhodes figures by council to inner west courier where deliberately fudged to fuck up Bill Bergia and Prolet who are doing the heavy lifting on the infrastructure and benefit minority land owners ecove / iprosperity who are not providing the critical enabling infrastructure .

Angelo our vision for Rhodes is not to be a ordinary run of the mill suburb but to be a extraordinary place to live with jobs entertainment connected east and west ferry light rail heavy rail connection to metro via light rail or bus medical centre with surgery schools aged care hotel all the restaurants you could dream of Parks enhanced rowing ♀ facilities child care facilities from the cradle to the grave and everything in between we don't just do a little and leave we are here for the long term un like some in the development business it should not be adversarial we should all want the best out come and work as partners for Rhodes in order to get the best outcome for everyone it must be viable i am sure the council will understand that as council is also running a business and have to make ends meet

One idea is to get things moving with all aspects, planning built form, community and state infrastructure benefits and a great area to live, work and play - I know we can all work towards a great outcome.

John , I see unfair treatment and not playing with a straight bat , very disappointing . The same night , one hand , IPG site that has close to 14:1 FSR local independent planning panel advise on issues and one of them transport capacity issues (station) totally ignored and council vote to gateway , the next item the major land owners bill bergia and Prolet with less than half the FSR than IPG and solve the transport capacity issues on the station , receive a scathing report and council vote to put the scathing submission to council .
