And what do you mean by that?---I, I was being put under pressure by the others, as I have mentioned previously prior to the break, and I was getting pressured to, "You've made all this money" X, Y, Z "on this job. You need to pay us or else we're pulling off the job and you're going to get, you know, not be able to complete the works." And so I, and I didn't want to just hand over my bank statements to people, you know. So I made, made it look like it was my bank statement.

So these were documents that you printed off?---Yeah.

And how were they altered? If you say they're falsified, what do you, what was falsified about them?---I falsified this document completely. There's, for the transactions that I knew that they knew about, I put them in and for, and made up others.
