Did you visit Sairam Pilli in person?---Yes, that's right.

Right. And what was said to Mr Pilli?---I don't quite remember but I just said the same thing, that "They've executed a search warrant, your name was on there, they're going to come and see you, like, they're going to come and do a search warrant on your house."

30 Did you suggest to Mr Pilli that he delete evidence from his mobile phone or his computer?---No. No, not his computer but I just said, "Oh, just get rid of your phone."

You told him to get rid of his phone altogether?---Yeah, "Just get rid of your phone."

And is that because you knew that it contained evidence that was relevant to the Commission's investigation in this matter?---Not, not really. I just said, "Get rid of your phone just in case there's something on there."
