From Abdul. Your labour hire guys cant start on site they have not done the induction. John is liaising with their office to guide them through. They havnt paid the 70 per person for the induction. They will be sat down in the office until this is sorted. This should have been sorted out before they turn up to site as i am in north sydney today.

Sorry raj. Completed your induction Friday night. Just sent you an email with the completion certificate for TAP and Downer. Had a look at the rail industry workers website.. they still haven't fixed the role issue. I will call them up tomorrow

I terminated the previous submission and did it again. Had to pay \$44. I fixed the role issue, so don't know what you are looking at. I submitted everything, and will go to post office in the morning. Not sure when I will get the card number. Do you know where I can find that?

500g net \$8 each. it costs 85cents per jar, 250grams sugar for 50cents. in each jar is 5 figs which you would sell for \$1.20 each minimum. I only made 1 jar.

Rapid has not yet submitted. Waiting until 3pm, if still no submission we can submit and should get it at the price I sent last night. He has asked that we remove some items which he will ask for later as a variation post award. I will send you something shortly. Can you call me when you get a chance, before 3pm preferably.

Sending RJS clarification now. You may get a call from one of my engineers as well to confirm receipt. Send tomorrow with \$954k total for rjs and dabcorp price at \$973k, can submit dabcorp now. Include comments in dabcorp as discussed where your unsure about design etc. the problem is rjs insurances.

The commercial mgr asked to do a D&B check on your company to verify financial standing. They are double checking because you have no website and the company was created recently. You might get a call from dunn and bradstreet to ask u about turnover etc if they dont have ur details already. Fairly routine give me a call as ive been through tjis already with my company

Hey Raja, i think you should ring amit this morning and say youre following up on the review process and that the program is very tight you need to start preparing documentation and secure all materials. And that you and the project team are ready to mobilise straight after receipt of contract. Need to put pressure on him as rapid are dragging responses again.

I think we should also drop our price a little and say, following kick off meeting and thorough site inspection on friday, please note that we have over estimated some of the work. Attached revised pricing etc. I think we should come down to high 700s. Considering its going to be a 300k job i think its a good deal. Let me know and we can go through price schedule tonight

The dnb report is green and downer has it. They said your price is too high. They said transport wont accept this. So i said ill need to make the scope clearer and issue revised scope of works and marked up drawings for both parties to reprice..

Your labour hire guys cant start on site they have not done the induction. John is liaising with their office to guide them through. They havnt paid the 70 per person for the induction. They will be sat down in the office until this is sorted. This should have been sorted out before they turn up to site as i am in north sydney today.

Sorted. They charge me then "i pass cost onto you". Much cleaner this way as you dont have robos setup in ur system and its too hard for a little pissy job for u to create a PO etc. robos are happy as this way they are guaranteed to be paid.

Gutta send you an email tomorrow in detail of items needing to be done ASAP, but briefly:
No vynil in staff room, no soap dispenser, no baby change table, wrong colour mortar on bricks (they reckon wait a few days till it dries..) no locks on doors (not per spec), kitchen not finished, place wasnt cleaned properly- nathan and john are there cleaning now. Wall tiles smashed up in staff toilet, one window not completed (existing window that had AC in it, and no bars - they had to block it with ply, no new doors fitted to staff room, SSER door dont fit (blocked with plywood). Staff room, staff bathroom and FAT are all incomplete.

Received this in response to my email

We will response with action plan to address below outstanding items.

We would also like to note the following in relation to the works carried out by our team over the possession:

- On Friday nightshift there were Downer workers still working inside the building while the demolition works being carried out externally
- On Friday nightshift most of the rubble and rubbish were carried up the stairs to the skip manually
- On Friday nightshift the old staff office was left unpacked
- On Friday nightshift we had to remove signage, two platform chairs and platform bin
- On Friday nightshift we were instructed to remove bricks marked up by heritage consultant ONLY
- On Saturday dayshift our plumber left site as there were too many workers inside the new staff room
- On Saturday dayshift additional bricks requiring removal to accept the new window
- On Saturday dayshift we had open trench and machine tracking continuous in a very close proximity to our work front preventing us from installation works
- On Saturday nightshift we still have other workers going inside the building
- On Saturday nightshift the crane stopped working requiring our workers to carry all the equipment up the stairs
- On Saturday nightshift we have started cleaning up the platform after installing geofabric on the track
- On Sunday dayshift we have continued the clean-up and reinstated the platform furniture, the only real cleaning activity left externally was to the brickworks and I would like to stress that not to spray ANY water over the newly constructed brickwork for at least another 3-4 days until the mortar is sufficiently cured

Yes, there were a few instances of not wearing appropriate PPE, I have personally addressed on the spot and I will continue to ensure that this will not happen again.

Ok. Most of this should have been discussed and clarified during T-2 and T-1 meetings. There will always be other contractors working in close proximity hence why we do these combined planning sessions so evetyone knows what everyone is doing.

It might be better if we do toilet move in october possession. Doing it during week will cause too much drama. Lets just fix all the other defects and leave toilet move for possession please.

Monty is telling me that Robson Civil moved the tiles off the pallet under the stairs. This is another f-Up from the possession planning. Why didn't they know where Robson was working and where they were allowed to place their tiles.

Hey mate. We need to sort out the windows to keep the heritage consultant happy. I will need you to attend site on friday or monday to walk through and figure things out. He wants new windows made and wants shop drawings done for approval. He said what we sent him was not shop drawing. This is priority no.1 and will need to be fixed on 28-29/10 shutdown. This is the last shut down we have.

Raj i just found out that nick is away from monday lunch time till friday.

Could you please have monty complete the following:

- demolish and remove existing kitchen.
- build divider wall between SSER and cleaner room.
- bring joiner to measure up doors, windows and kitchen drawers.
- Plumbers must replace mirror and install A/C lines in existing conduits (variation). Monty already knows about it.
- build floor and roof per revised design (design to be provided by COB Tuesday).
- if you want to come or your bro, this is the week to do it.

I know man, someone kicked the fat door on thurs night. And theres a temp SM there whos a prick and saying this doors shit i want it fixed now people cant use it. So i minuted it and took photos. Lets change it when nicks away. If seng can come up for the day then thatll sort it out. Handrail by mullaney anyway.

Extraction Report - Cellebrite Reports

Summary

Report creation time	12/01/2023 1:28:02 PM +11:00
Time zone settings (UTC)	(UTC+10:00) Sydney (Australia)
Examiner name	Forensics
Location	Sydney
Case number	E19-1595
Case name	OP Hector
Evidence number	E19-1595-AS-7-9-PR-0004
Department	Forensics
Organization	NSW ICAC
Notes	HTC 10 Phone with SanDisk 128GB MicroSD S/N: 6132DPEDA000
