

And this is the same day that you sent that document from your Transport for NSW address to your personal email address so I'm putting it to you that you provided this BOQ for Birrong to Nima Abdi on 25 June.---But whose number is this?

This is a message, you can take it from me, from Nima Abdi to Tony Nguyen of RJS Projects.---Right. So that blue thing is and that's, that's Nima's telephone number and Tony's telephone number?

10 Correct.---Well, he may have got that from the R drive on the same day that he rang me.

Your evidence was that Nima Abdi wouldn't have had access to the R drive, only people on the TAP projects - - -?---No, no, no, no.

- - - would have had access to the R drive.---The budgets were, he, he was on TAP.

20 So it's purely coincidental that the same day you send yourself this document Nima Abdi forwards it on to Tony Nguyen?---Well, if, if I, if I said to Nima it's on the R drive he could have got it from the R drive.

So your evidence is you deny providing the Birrong PDF document to Nima Abdi. Is that correct?---I just can't remember if I did but it looks like Nima maybe has got it from the R drive.

THE COMMISSIONER: From where?---R drive.

30 Why do you say it looks like it came from the R drive?---Well, because I told him when he rang me that, you know, get it off the R drive, it's available, or it's on the R drive. I, I mean I don't know exact words.
