### A couple of handy tips:

- Upon receipt of your card, please check the details are correct. If you require changes, please contact your Fleet Manager.
- Always check the information is correct on your sales vouchers when you make a purchase with your Shell Card.
- Do not leave this card in your vehicle, for risk of it being stolen. The Accountholder is responsible for all purchases made on the card until the Shell Company of Australia Ltd. is advised in writing of the loss of the card.
- This card is magnetically encoded. Avoid exposing your Shell Card to magnetic fields and other magnetically striped cards.

If your card was requested with a Customer Security Number (PIN) you will need to activate it at a manned Shell service station. You will have to select a PIN number on your first Shell Card purchase, and enter it a total of 3 (three) times for your Shell Card to be activated. The PIN must be 4-6 characters in length and must be numerical. You will then be prompted for this PIN every time you make a purchase.
