**Subject:** RE: 81 Riverstone Parade Riverstone, Callieja Waste

Good morning Simon,

Further to the complaint I inspected the site on Saturday morning and the material is soil only and does not appear to be contaminated and does not have odour. However the activity does require consent and no consent has been sought or granted to have the material stored on the land. Council will be serving a Notice and Draft Order on the owner of the land to cease the unauthorised use.

Kind Regards

Jason Roberts

Hi Simon,

Council is investigating a number of sites within that complex and this matter has been reported to Council. A further inspection will be done tomorrow to address concerns.

Kind Regards

Jason Roberts

Hi Jason.

Sorry for the email late on a Friday.

Considering council is currently taking action against Calleija Waste at 81 Riverstone Parade Riverstone do you guys know anything about a Nojo or RTS as in the complaint the EPA received today (below).

**"Illegal dumping or storage of waste. Caller reports that the site at 81 Riverstone Parade Riverstone is an old abattoir site which is being leased out to 15 or 20 smaller companies now. A company that started there only about a month ago (thinks its either Nojo or RTS) has been bringing in truck loads of very black soil and caller states that there is a very strong smell of petroleum coming from the stockpile, and workers on the site are starting to complain. Pile is around 40m long by 10m high and unknown width - about 80-100 truck-and-dog loads. Site is not licensed as waste transfer station or tip site."**

Cheers

**Subject:** RE: 81 Riverstone Parade Riverstone, Callieja Waste

Hey there Jason. Fully understand the time pressures around media interest.

In relation to 81 Riverstone Parade, Riverstone NSW (the Premises) I can confirm that EPA authorised officers conducted an unannounced site inspection of the Premises on 8 Dec 2015 as part of a follow up to Operation Termite. As background operation termite was an EPA operation investigating which sites would require an EPL after the changes to the waste regulation in 2014.

EPA officers met with Mr Chris Calleija who claimed to be the sole director of Dump it Bins who escorted the officers on an inspection of the site.

EPA officers observed less than 1000 tonnes of waste stored at the Premises. Mr Calleija told the officers that he had a DA in with council that had not yet been finalised and that Blacktown Council was aware that he was operating.

EPA officers observed limited environmental controls including stormwater management and dust controls.

I understand that a letter to Blacktown Council alerting the council to the EPA inspection was drafted but im not sure if it was sent to you guys. If you didn't receive it apologies I can find it on our system and send it to you if you would like.

Any questions feel free to give me a yell on 9995 6158.

Warm regards

**Simon Matthews**

Good Morning Simon,

Council is progressing with action against the operator of the activity at the premises.

I have just spoken to the operator Chris Calleija and he advised that you inspected the premises around November 2015.

Would be appreciated if you could advise of the results of your inspection in regards to any contaminated waste on the land etc. Council has received a media enquiry regarding the operation I need it asap which is painful. Thanks heaps.

Kind Regards

Jason Roberts
