Paul

Thanks for your comments, I appreciate and share your concerns, we are intending to address this issue with all Managers and IC's at AAR's and meetings over the next few months prior to the next season.

Steve,

The Bathurst/Oberon S44 ended on 3/2/14. Since then we have received almost 30 Logistics requests for events/purchases that occurred during the event. These are requests that should have been made at the time they occurred rather than almost a month afterwards. It would seem they are simply waiting for invoices to show up and then doing the paperwork to cover them off.

To say the least, the Logistics at this event was poorly handled and executed with requisitions arriving with no detail, no costs, no idea how many personnel were staying in motels etc and no idea on how many personnel were going into the Base Camp.

As Districts appear to be moving to an era where HQ is issuing all orders (due to Councils not wanting to bear the cost), we need to assess the levels of capability of Logistics Officers and if necessary provide additional training. Region North have made a good start to this already with numerous forums and courses for those staff involved in Logistics. It may be worthwhile running such forums in other Regions but particularly Region East (if it still exists!).

I'm sure the AAR has already occurred but if not, this issue needs to be addressed with the IC.

Thanks
