This is majorly (i know it is not a word) embarrassing!!!! - even writing this email is making me blush- i normally don't let anyone read the songs i write for the obvious reasons. I can give you the run down of the song if you would like, but keep in mind it is a work in progress - i have 4 different sheets of paper with words/lyrics so this may not be the final cut (but it is a start). At this stage i have a melody in my head but no chorus as yet- OK i am nervous thus the reels of explaining. I leave it to you - and be honest - i would not expect anything less - if it su\*ks i will take it as positive criticism. OK here it is

## NSW ICAC EXHIBIT

Staring out this window,  
My mind chasing shadows of you  
I listen to the rhythm of the rain  
I try to talk to my heart  
Trying to explain why.....

I'm so over the crying  
Can't sleep and am tired of trying – to forget you  
But it's inside that I'm dying  
Until I'm over you  
I will be waiting for you always.

My days I miss you like crazy  
But it's the nights that I go insane  
I wish I could say goodbye to my heart  
At least then I wouldn't have something  
That is breaking me apart

I catch myself wondering  
What might have been  
Yes I think about you endlessly  
Every now and then

I beg the heavens to let me  
Tell you how I feel  
A letter or a song to you to give  
But I am scared the words and  
Feelings would only confuse

I guess no amount of time or space is enough  
To throw me so far from you  
I cannot escape your love  
To which I will hold in my heart forever

You will never know  
How valuable a moment, that moment is  
Until it becomes a memory

FH,

I know that today (as you will open this the day after i send it - deeeeer freeeee) you will be busy and all so i will at least hopefully start your day on a positive note - i made this up on the spur of the moment so please dont totally annihilate it. i know i know - not another thing but i just think that because you mean so much to me it is important you are happy alwwwwwwaaaaayyyyyysss - ok here goes and its not a rhyming poem because i didnt have time (sorry)

umph (that was me coughing before i start - bit dramatic eh)

When you opened your eyes today

You wondered why do i have to be going to work

Its going to be a b\*tch off a day

Well here is the reasons why i believe you had to come to work

MEEEE

Yes me - who else you dag!!!

Let me tell you why

Firstly because i am a legend (stop saying in my own my mind lol)

Then just because i am one of a kind and special and i don't mean Callum Park special so relax

Because i have the body of an Adonis - yeah I see it everyday when i look in the mirror and just because i am holding up a life size picture of an athletes body in front of me it doesn't mean anything!!!

And now i will stop focusing on myself for a second - seconds up - i will kick your b\*tt otherwise

In all honesty Fatima - you little legend (because i am the big legend so back off) i wish you the bestest day and i hope its not as boring and hard as Wendy had made out it to be. I wish i was here today (i am a time traveller) because i want to stick my tongue out and give you a massive raspberry but i know how ....whats the word .... ah you know what i mean and all the saliva would probably make you chunder. As i write this you will have gotten the note that i left on your desk and probably have major conceptions about how to get rid of me - but tough your stuck with me - why - well i cant answer that question without you getting all primal on me but in executive summary version and in a real sense - you spaz head mean more to me than you will ever know and that is why i act all weird around you. Yeah yeah i hear you say - but chillax girl if anyone or anything makes you sad - i will kick their b\*tts so hard that tomorrow will be sung from that kick - yep i will die for you beleive it or not and to be honest look at me - i dont think anyone would mess with the A man (by the way that stands for Anthony man - you do tend to be a bit slow sometimes lol)

I better stop because i know your history with reading stuff and all stuff emotional (did you love that little slip in)- i hope you have a day that is not as bad as it may sound and i hope the day flies so you can get home ASAP

You will be missed - by your bed!!!! and of course this absolutely gorgeous person that when he walks past a flock of birds they whistle at him but i hope the day starts of well has some middle bits and ends on a high

Be good and safe and spazzy - smile because i want to see the sunshine and that is the only time it happens - when you smile

Missy,

Its been a while since i have written an email to you that was just a little strange and just a little OMG responsive from you so guess what s\*cked in i am in the mood to write one this instant and moment. (by the way HR number is located on infolink if you would like to complain).

They say that most things like this should be written from the heart so i will go with that - now i will pause (yes it sounds dramatic but i am actually sitting hear in the thinker pose trying to listen to the words that are to follow from the heart).....I sat here for over a minute and this is what i heard - thump thump thum - what are these people talking about!!!!!! - bl00dy arty people always talk as if they are on something - ya man - sh&t were did that come from - lets not go there.

So really why am i writing to you at this forsaken hour when i should be going home - im not sure but well y not - you make me wanna blabb - which drives you absolutely nuts - i know that is true !!!!!. It is about this time that you start to think - (yes i know the timings of your mind yes i am a bit of a brainmacspatron!!!!) why on earth has this person come into my world and bombarded me - i dont know, i guess i am the reincarnate of a lunny but once in your life someone comes into your life that turns your world upside down - that is exactly what you have done to me - i feel like a bat on a branch sometimes - get it get it get it - nah you don't do you???

You are person of not many words but its not the words that come from the mouth that count in this life believe it or not its the words that come from within and oh boy your words do have extraordinary meaning - again why i do not know (i see a pattern - i am dopey i have no idea as i don't know alot).

I want you to be smiling after this email - there you have it - finally gotten to the crux of why i wrote this. You beam things out when you smile and trust me this place needs it (be careful someone is looking over your shoulder!!!!)

Made you look!!!!

You have probably heard it thousands of times before from other people but you are absolutely amazing and dont forget it OK - i hear the whispers (here i go getting all u know lyrical or something) in the distance and they are echoing your name and trust me its a feeling that is awesome as i have been blessed to know who you are, well at least the precipice of who you are - i thank you for

tuning my world all around

making my tummy go all butterfly's (nah i'm just hungry lol)

being you!!!!!!

I'll stop as by the time you read this it will be lunch time if i dont stop - Have an amazing day just like who you are and dont let the place fade that fabulous aura that i see everyday i see you. I attach a picture that reminds me of you (not in a bad way) - u are definitely a stand out from everyone (ok its a cheap way of giving someone a flower lol - tight a\$\$ eh)

Be well

Fatima,

I sat here thinking about you all day (as i do) - worried is not the word but more so wondering why you might be in a mind set at the moment that you are in (as noted in the morning - yes i do listen maybe too much) - OK i might be over analysing it and i dont want to upset you by even pondering this, but i am me and i know how much you mean to me and i dont give a sh\*t what anyone thinks - i do care for you - a lot. I am painful yes i know and sometimes i can come across in your face to much, which is probably driving you mental and your probably so over it that you wish you can scream and run - i am sorry for that - but i have a defence in this. SO what is this email about it is two fold.

One - i want you to know i am always and i mean always here for you - no matter how much sh\*t you might put on me or push me away - U MEAN TO MUCH TO ME - i'll stop cause i know how uncomfortable this makes you but Fatima - i swear to you this i will die for you and with every beat of my heart i will do whatever you ask of me no matter what!! Yes its f'cken comy and yes it sounds to forthright and if HR got a hold of it i might as well look for another job - but i dont care - i dont want you to ever feel down and i mean ever!!!

Two - Now to get Fatima all cheered up again please note you have just read an email and you are staring to much at the screen and it is getting weird!!!!

Have a great day and i wish you smile

Fatima,

I was hesitant sending you these words etc as I didn't want you to feel all wtf and weird about it - but then I said to myself you know what just do it!!! You deserve to be treated special as you are special!!!! You Fatima and I'm sure hundreds of others have said it before are one special girl and if not all at least one (me) will always try and make sure you feel that way. No I'm not feeling sorry for you far from it and yes get over it, I'm sending this too you cause I care - now take that in and save it as that vault of yours is harder to crack than the FBI mainframe so you are the only person with that passcode!!! So from me - a man with a million words to you - a woman who doesn't write much and is very closed - I send you this - don't freak - I'm not propositioning you - just know I'll be there

I awake each day with a smile  
As the world is a treasure to me (yes even Parra lol)  
Because of u

Every time u are sad or hurting  
I am thinking of ways  
To bring the stars and angels down  
To comfort and guide you

I have no idea why  
You have come into my life?  
Why  
I am doing sh#t like this?  
Why  
I care?

But I know that no matter what  
No matter how hard you might push me away  
Your name is already embedded in my heart

Each time I see something beautiful  
I want to steal it and give it to you  
You have entered into my life  
Sometimes I wish you didn't  
But I am glad and thankful you did

Faith makes all things possible  
You make things easy  
Enjoy your day!!
