Tenders for Repairs: Tahmoor Project Area

---

ISSUE:

Delegation limit for Selected Tenderers.

BACKGROUND:

Selected Tenderers are used for repair works up to \$20,000. This process is designed to facilitate prompt, high quality repairs to mine subsidence damage. The limit of \$20,000 covers most cases of repairs, but is not helpful in "clusters" of damage.

Where there are many repair jobs in a locality (such as Gwandalan and Appin in the past) the Board has extended the limit.

PRESENT POSITION:

At Tahmoor, 129 claims have been accepted so far and 26 have been repaired. It is proposed that the selected tenderers limit be extended to \$50,000 for claims that have been accepted for Tahmoor Colliery's operations at Tahmoor

RECOMMENDATION:

That the limit for selected tenderers for repairs to claims in the Tahmoor project area be increased from \$20,000 to \$50,000, for the duration of the repair project.
