Hi Joe

Couple of quick things,

Are you ok for me to use you as a referee on a panel submission for federal government?

Steve Metzmacher one of our Directors would like to join us this afternoon and meet you if its ok by you, alternatively we can catch up 1-2-1 if you'd prefer?

Joe

As requested please find attached an overview of Third Horizon's Joint Venture and general capabilities. While we have solid commercial negotiation experience I have focussed this capability overview (and the detailed case study) more on the practical activities which often need to be undertaken to establish an effective joint venture as I believe this is an area often underplayed in joint venture establishment and which is often critical to a joint venture's success. Should you require any further information or clarification regarding our capabilities please do not hesitate to contact Steve Metzmacher or myself.

Third Horizon would welcome any opportunity to bid on this type of work with RailCorp in the future should the opportunity arise.

Hi Joe

Just a quick email to see if there has been any movement in relation to the capability overview we sent to you regarding joint venture establishment. I suspect its likely to be on hold til after the 15th May but thought I should touch base anyway just to check.

Also we've struggled to make contact David Callahan. I suspect that may be just a function of how much he has on his plate but want to make sure he's at least aware of our capabilities. Any suggestions as to how best to take this forward?

Hi David

As below I was hoping to get a brief meeting to introduce Third Horizon to you.

I imagine things are extremely hectic for you at the moment so I have taken the liberty of sending you this overview of Third Horizon's capabilities.

It includes our background, broad experience (including Rail) and a sample of the types of people we have.

The main purpose is just so you are aware of who we are and what we do, in relation to the impending Railcorp reform implementation.

If you are able to spare any time to catch up let me know.

Kind Regards

Hi David

By way of introduction I am one of the founding Directors of Third Horizon.

I was hoping to get some time with you to formally introduce our organisation to you.

The primary purpose is just so you are aware of who we are and what we do - our capabilities, experience, background etc.

In short, we focus largely on executing transformation programs and we have reasonably strong experience in the Rail and broader transport sector, including people who have delivered various Railcorp reforms previously.

I am keen to ensure the key people involved in the current Railcorp reforms are at least aware of who we are - in this context we have met several of the existing Railcorp management.

I understand you would no doubt be extremely busy but let me know if you can spare some time to catch up.
