Gavin

Hope you enjoyed your break. Welcome back.

I had a talk to Dave (while he was acting MD) last week regarding Joe Camilleri and his possible return to GM MC&C role. I am concerned about 2 things; He is under financial stress and secondly his integrity is to be questioned following misrepresentations given to myself (and I believe other staff) from whom he borrowed.

Dave did not get a chance to talk to you about this today and he suggested I talk to you when you have a chance. You may have already addressed this.

Regards,

Ray
