Mark Ross-Smith							1. Confidentiality deed poll and Conflict of Interest declared 2. I had breakfast on Sunday 21 August with an old mate [redacted] who I knew had joined UGL recently but I did not know in what capacity. It turns out he is in UGL Rail in a Passenger Car Sales area with RailCorp as his main customer. He is aware of the L3C procurement and is getting to know the players within UGL but has no part in the bid team or process. Needless to say, once that had been established we did not discuss L3C or MainTrain any further.	Closed
