

Office of the Registrar of the Aboriginal Land Rights Act's report on implementation of plan of action in response to *Investigation into dealings involving Awabakal Local Aboriginal Land Council land.*

Please indicate which applies:

This is a final report; the plan of action is fully implemented

This is an interim report; a further report will be provided in twelve months

As previously advised, the scope and scale of recommendations made in investigation reports varies considerably, as do the plans of action public authorities develop in response.

The Commission recognises a single template may not be effective for reporting on the implementation of all action plans. In view of this, Office of the Registrar of the Aboriginal Land Rights Act (ORALRA) is invited to use a reporting format that best illustrates the comprehensiveness of the implementation of the plan of action.

The Commission asks that proposed report formats are discussed with the ICAC's corruption prevention representative named in the cover letter. The ICAC corruption prevention representative will advise if the report format has the Commission's endorsement.

However, if ORALRA prefers to adhere to an established format, the following may be used as a guide.

Report (final)

Recommendation 13

That the NSWALC and the registrar consider whether the corruption prevention recommendations made in this report should be applied to other LALCs and whether the NSWALC and registrar should collaborate to develop an education program that addresses the findings and recommendations in this report.

| Each action plan item |
|---|
| The Registrar and NSWALC agreed to implement the intent of the recommendation in an alternative way. The Registrar understands that NSWALC and ICAC have collaborated to develop a corruption prevention program for LALCs. The Registrar supports the development of such a program and is willing to support the development and delivery of the program. The Action is, in respect of the Registrar, complete. The Registrar is not aware of any factors affecting implementation, or indicators of effectiveness. |
