Vodafone CCR Data: Raw CCR data contains a column titled 'Time Zone Code'. The 'Call Type' of SMS contains the 'Time Zone Code' of 'STD'.  
The carrier explanation for the Time Zone Code 'STD' is as follows:

- Time zone Code Indicates which time zone to attribute to the event and the local start time column.
- Where a State is show e.g. NSW, QLD, NT, SA, TAS, VIC, WA, the time is local to that state.
- Where STD is shown = Standard Network Time which is always equivalent to Eastern Standard Time (note – never Daylight Saving Time)
