Draft

Dear Chairman

I write to you regarding a matter of urgency in the Riverina District of New South Wales and the relationship the matter has with Bright Foods China.

It is a matter of fact that Bright Foods, through its subsidiaries Shanghai Dairy Group, has a controlling interest in the UWE Oaten Hay facilities at Wumbulgal in Leeton.

I am informed that an agreement had been reached between the parties to divest Bright Foods 51% to another preferred shareholder but this transaction has not occurred for some unknown reason.

I seek an appointment with you in Shanghai on Thursday 7th September, 2017 to discuss the serious implications for UWE and the State of New South Wales that such a delay is causing to the operators but not to mention that loss of face by my political leaders who have supported this joint venture very publically.

I do hope you understand that unless the agreement is honoured or a replacement shareholder installed quickly that can partner with UWE to purchase additional crops and finance extension plans, failure will most likely leave 20 unemployed and raise serious questions by our government both State and Local.

In order to avoid this potential embarrassment, I will fly to Shanghai to meet with you face to face in an genuine effort to resolve this crisis and I seek your assistance to avoid the loss of face and confidence in any future Chinese joint ventures and I look forward to confirmation of my appointment with you as soon as possible.

Yours sincerely

DARYL MAGUIRE MP
