Dear Chairman

I write to you regarding an issue relating to the Riverina District of New South Wales and the relationship concerning Bright Foods China.

It is a matter of fact that Bright Foods, through its subsidiaries Shanghai Dairy Group, has a controlling interest in the UWE Oaten Hay facilities at Wumbulgal in Leeton.

It is understood that an agreement had been reached between the parties to divest Bright Food's 51% to another preferred shareholder but this transaction has not occurred for some unknown reason.

I seek an appointment with you in Shanghai on Thursday 7th September, 2017 to discuss the serious implications for UWE and the State of New South Wales. The delay is causing issues for the operators, farmers and loss of face by my political leaders who have supported this joint venture with SDG China very publically.

You must understand that unless the agreement is honoured and a replacement shareholder installed quickly, that can partner with UWE, to purchase additional crops and finance extension plans, failure of the venture will most likely leave 20 unemployed and raise very serious questions by our government both State and Local about future joint ventures with Chinese companies.

In order to avoid this potential embarrassment, I will fly to Shanghai to meet with you face to face in a genuine effort to resolve this pending crisis.

I seek your assistance to avoid the potential loss in confidence in Bright Foods joint venture with SDG and UWE and look forward to confirmation of my appointment with you as soon as possible.

Yours sincerely
