However this week has been frenetic for me. I ve facilitated a meeting for an Australian mining company to meet one of the biggest Chinese mining company in Kunming. However there are still a few issues outstanding ... and we need to leave on 24th nov but still can't book the flight as they can't settle the name list. He said he is going to ask Alan and let me know. I will wait and see. By the way about 2 months ago you mentioned Julian malnick mt adrah gold. However didn't get chance to meet him. Just wondering if I could contact him? Maybe better if you introduce me to him again? The Chinese person I am working on has experience in investing mining in China. So maybe opportunities here. E__rything on our end is ready to go for Amy [redacted] Since the financials for last year ie 2013/2014 is not formal yet. To make it simpler and easier, we are going to use the financials the year before ie 2012/13 to start with. 2013/14 would be the supplementary to submit at the end. Last Friday I have asked Josh if he could forward to us once he gets it however, we haven't received it. Not sure if Josh should be the one we should ask, just don't want Josh too overwhelmed. Also, we need the company profile. Should I ask michael for it? Believe you have most documents ready, just wondering whom I should ask? We only need what you have on hand. No need to prepare for a new one. The one we need is for previous year 2012/13 which you have done tax already and must have reports. In your company's standard employment contract, probation is 6 months in stead of 3. Therfore we are going to cover amy first 6 months salary and super. You don't d pay anything. After 6 months you can assess her ability and negotiate new employment conditions or you may decide not to continue, all totally up to you. See employment contract for Susan ▮▮▮▮.
She commenced her employment with us on 17/12/2012 and her employment was terminated on 22/11/2013.
The reason we wish to employ Mr ▮▮ is because of his ability to raise equity for privately funded electrical infrastructure programs including renewables.
In the attached document we paid her $16K for part time work however when she first started her salary was $50K.
If you need anything else let me know.
Kind Regards
Shaun Duffy
