**Subject:** Wagga Wagga Clay Target Facility submission

Paul and Michael

As discussed, the Premier's Office has questioned why the Wagga Wagga Clay Target Facility submission could not be delayed until the new year, to allow time for market testing of costings and project planning to be completed. The submission does not make a clear case as to why it requires approval before Christmas, although discusses the broad 2018 construction deadline.

If these matters can be addressed fully in time for the submission to be lodged, the Premier's Office appears broadly OK for the submission to proceed to the 14<sup>th</sup>, noting the extremely shortened timeframes. Without this, it is likely that the Premier would seek that the item be moved to next year to allow the issues to be addressed anyway.

Minister Ayres office may wish to discuss the priority of the item direct with the Premier's Office. We are able to move the item through the DPC approval process depending on the outcome of any discussions.

Happy to discuss further – 9228 3209

Regards

Kent
