But it hasn't been approved.

The ERC decision refers it to the Regional Growth Environment and Tourism Fund and says a satisfactory business case needs to be done and it needs to satisfy the criteria for the Fund. The treasurers office also told me the criteria for the Fund hasn't been approved by ERC yet, not expected at ERC till early next year.

Has the DP started announcing grants from this Fund yet?

If the money is coming from somewhere else,

And that is the reason he needs another business case,

But essentially it is now approved by government,

Can't we give him something to announce?

Or is there a risk this will still unravel? Feels to me like we are just ticking boxes and if it was [REDACTED] he would have announced it yesterday.

(Sorry about the weird formatting)

He just wants to know what the process is...if we can't explain it to him how can he communicate with his electorate.

Project is a solid one but someone should talk Daryl off the ledge.

Project is legit.

Perhaps Gladys and I need to write to Daryl.

Treasurer's office have just given me the draft decision (see attached).

Summary includes:

1. Grant should be sourced from the Regional Growth Environment and Tourism Fund and comply with the criteria to access the fund (I am advised the criteria has not been approved by ERC yet).
2. Is subject to finalisation of a satisfactory business case (current business case is not acceptable)

Treasurer's office say to follow the proper process the grant won't be able to be announced until the criteria for the Fund is approved by ERC (early next year) and the business case is approved by the Treasurer following INSW assurance processes.

Marie, were you saying before the Deputy Premiers office have been allocating projects to this Fund already? Do we deal direct with the DPs office or are they trying to kill this project?

Marc
